Goals

Public Content

Background & Return on Investment:

The Buildings and Grounds (B&G) Department is responsible for maintaining the HVAC systems in the District's buildings. B&G identified the need to replace two compressors on the Carrier chiller at Trevitt/Beatty Park Elementary School in order to provide a safe and comfortable learning environment.

Consistent with Board Policy 6440, Cooperative Purchasing, the board of education recognizes the advantages of centralized purchasing and encourages the administration to seek advantages in savings that may accrue to the District through joint agreements for the purchase of supplies, equipment, or services. Through the Ohio Department of Administrative Services, the District has access to the State of Ohio Master Agreement #GPC032, Contract #RS903618 with Johnson Controls, Inc., for HVAC Systems, Installation, and Service-Related Products and Supplies.

Through this contract, individual projects are submitted for pricing based upon the established contracts. Johnson Controls, Inc., submitted a proposal to complete the required scope of work. Using Cooperative Purchasing, the work is expected to be completed prior to the start of the 2018-19 school year.
